Conservation Victory.

Washington, May 1.—The legal battle against the forest reserves of the West, in particular, and conservation by the Federal government of natural resources in general, was lost to-day in the Supreme Court of the United States.

in the Supreme Court of the United States.

That tribunal not only upheld the constitutionality of the establishment of the vast reserves for any national and public purpose, but it settled once for all that the Federal government and not the States may say how the reserves shall be used.

The immediate results of the conclusion of the court are that Fred Light, a prominent Colorado cattleman, will remain enjoined from allowing his cattle to graze on the Holy Cross forest reserve in Colorado, and that Pierre Grimaud, J. P. Carajous and Antonio India, California sheepmen must answer to the indictment charging them with grazing sheep upon the Sierra forest serve without a permit, in viola 1 of regulation 45 of the Secretary Agriculture and the act of Congre. AN EXPOSITION OF THE WONDERFUL NEW RESULTS PRODUCED BY THE USE OF LASTIKOPS WEBBING

JEMO WEEK for 1911 is an event of vast importance to millions of women. because it marks the completion of the most remarkable line of corsets ever produced—the new NEMO LASTIKOPS CORSET SYSTEM.

Since our great "Innovation Sale," last January, we have made constant additions to this System, so that nearly all dealers should be able to show, this week, a complete variety of models for women of EVERY FIGURE, from EXTREMELY SLENDER to EXTRA-STOUT.

THE MOST PERFECT CORSETS = These Are THE GREATEST CORSET VALUES Ever Offered

Lastikops Webbing is the ONLY elastic fabric ever made that DOES; NOT LOSE ITS ELASTICITY. We guarantee it to wear as long as the corset. It is our own patented invention, used ONLY in Nemo Corsets. It enables us to assure you greater figure-reduction than can be produced by any other corsets -and this with a delightful sense of comfort and complete hygienic safety.

Nemos Outwear All Other Corsets Because They Represent Twice as Much Actual Value in Material and Making—and You Pay Nothing Extra for the Nemo Special Features and Service

Nemo Corsets have always been in a class alone, and now the marvelous style and health effects produced by the use of our semi-elastic Lastikops Webbing have placed Nemos so far above and beyond all ordinary corsets that competition has been actually eliminated.

Newest "Self-Reducing" Models in the Nemo Lastikops Corset System

WITH LASTIKOPS FLATNING-BACK See cut of No. 321, above. Broad bands of Lastikops Webbing across the lower lower hip produce ex-treme reduction with the modish in-slope. Self-Reducing front:

No. 319-with low bust 3.00 No. 321-with high bust

LASTIKOPS-LIMSHAPING EXTENSIONS See cut of No. 406, above. The elastic bands reduce upper limbs tonatural size—your tightest gown will fit without a ridge or wrinkle, yet you can sit down with ease:

No. 406-with low bust 34.00 No. 408-with high bust

WITH LASTIKOPS BANDLET See cut of No. 522, above. Great est reducing corset ever made, and endorsed by physicians. The semi-elastic Bandlet gives perfect support from underneath:

Nemos for Slender Figures and for Women of Medium Form

Stout women no longer have a monopoly of Nemo style and comfort. SLENDER women now have FIGURE-REDUCING CORSETS all their own—just as comfortable and

HYGIENICALLY PERFECT as the more famous Self-Reducing.

The illustration of No. 330 shows how the transverse bands of Lastikops Webbing firmly hold the abdomen in place, no matter how much you pull the long skirt in. This ingenious device banishes all dangers of tight lacing, stops that "bearing down" feeling which every woman dreads, and gives a grateful sense of ease and comfort. There are four models: There are four models:

No. 330—With medium bust and long skirt No. 331—With low bust and extra-long skirt No. 332—With extra-high bust and long skirt No. 333—With short girdle top, very long skirt

These Corsets completely solve the problem of fashion-ABLE SLENDERNESS for women of slight or medium form. These, and the other models in the Nemo Lastikops Corset System, are the only very long corsets for slender figures that are comfortable when the wearer is seated.

All Imitations of Nemos Are Worthless

All attempted imitations of Nemo Corsets have failed, because the special Nemo functions are performed by our own patented inventions and cannot possibly be performed without them. Nemo imitations can be sold only to women who MISTAKE them for the GENUINE Nemo.

Nemo Corsets Are Sold Everywhere You may as well enjoy Nemo style and ease with the millions of other women. Go to your favorite dealer this week, and be carefully fitted in a Nemo that suits your figure. But be SURE that it's a NEMO. W KOPS BROS., Manufacturers, New York
